TWO BOOKS EVERY BOOK COLLECTOR NEEDS!

COLLECTIBLE BOOKS: Some New Paths

Ed. by Jean Peters. 1979. c. 300 pp. 6 x 9.

ISBN 0-8352-1154-1. $16.95

In a revolutionary departure from traditional book collecting, twelve well-known collectors and bookmen challenge the long-accepted view that "rare" books are the collector's only quarry. Writing from their own experience, they lead the collector into a world of collectible books that until now has been left largely unexplored and prove that it is still possible to find an abundance of books to collect and at prices that a collector of modest means can afford.

In nine enlightening chapters containing more than 40 illustrations, plus two introductory essays, they relate their experiences in building their collections and suggest numerous ways in which collectors can pursue their own interests and develop challenging and significant collections.

BOOK COLLECTING: A Modern Guide

Ed. by Jean Peters. 1977. 288 pp. ill. 6 x 9.

ISBN 0-8352-0985-7. LC 77-8785. $17.50

Scores of questions on the subject are intelligently answered by twelve noted book collectors, curators and scholars in lucid, informative essays especially written for this book.

Beginning collectors and more advanced practitioners as well as experienced librarians and booksellers will learn how to care for a collection of books and manuscripts . . . how to avoid the pitfalls of buying at auction . . . how to detect fakes . . . how to cut the cost of getting a collection appraised . . . and much more.

D. Steven Corey said, in *Book Club of California Quarterly News-Letter*, "the book is handsome, well-written and thorough and is recommended reading for both the beginning and the more advanced book collector."

"A standard work for libraries and for collectors."—Paul S. Koda, in *Library Journal*.

EXPLANATORY NOTES

Volume 86 of *American Book Prices Current* has been prepared by a team of editors highly experienced in the field of rare books and manuscripts. As its users know, ABPC is not just a transcribed record of titles and prices, copied unquestioningly from the season's auction catalogues. It is, on the contrary, the only work in English in which every listing of printed material has been checked as to title, format, date of publication, edition, and limitations. Bindings are described, with condition when relevant, and whenever possible maps and plates in books are verified. Moreover, sales of autographs and manuscripts are reported. Because of this, ABPC is an essential tool for buying, selling and evaluating books, serials, autographs, manuscripts, broadsides, and maps, based on actual figures realized at auction. In the words of a reviewer in *The Times Literary Supplement,* it is "an accurate, indispensable tool for the antiquarian bookseller and collector." And, in addition to meeting the need for a dependable guide in determining the value of old and out-of-print books, ABPC serves as a reference work and as an aid to scholars in locating printed works and manuscripts of all centuries, from the earliest years to the present.

American Book Prices Current is composed of two parts. Part I, Autographs & Manuscripts, includes original illustrations for printed books, documents, letters, typescripts, corrected proofs, signed photographs, and signatures, as well as manuscripts. Part II, Books, includes broadsides, single-sheet printings, maps and charts, and uncorrected proof copies of books.

Entries are listed alphabetically by author whenever possible, by title when the author's name is unknown, or by Private Press and Club, printer, or publisher headings if such are the associations which attract the collector. In general, illustrated books are listed under the author of the text. Subject headings such as England, Maps & Charts, Hebrew Books and Miniature Books or those for individual U.S. states or cities have also been used. Individual works are in turn listed alphabetically under each heading and include: title; place & date of publication; edition designation; number of volumes, when more than one; size, binding, and condition of binding; descriptive material, limitation notes, and the sale record — auction house (in code), date or number of sale, lot number, price, and purchaser (buyers' names are given when and as listed in price lists). There are cross-references to Club or Press books, to books bound together, and to books by more than one author.

Volume 86 lists only those books and manuscripts which sold for at least $50 or its equivalent in another currency. In keeping with previous editorial policy, auction lots consisting of groupings of miscellaneous volumes are not listed, for the prices realized by such lots can give no accurate indication of the value of individual items. Similarly, listings of badly broken runs or seriously incomplete sets of printed books do not appear. Listings of books in non-Western languages realizing less than $100 have been selectively excluded, as have such peripheral works as printings of musical scores, collections of plates, and panoramas.

Listings of 20th-century books frequently appear without format or binding information. In such instances it may be assumed that these books are octavo or duodecimo and bound in cloth.

Many people have helped to bring this book to completion. On the home front Betsy Syrett, Jane Mallison, Candace Kuhta, Andrea Tucher and Susan Hays helped fight the good fight. At Inforonics, William J. King performed above and beyond the call of duty, as he always does. Joel Rothman of Advance Printing saw to the setting of our front matter. And those two very wise and professional women, Audrey Smith at Columbia University Press and Marjorie Auber at Maple-Vail, saw to the materials for and the manufacture of the books.

Currency

The highs and lows of other currencies in the 1978-79 auction season expressed in terms of the value of one American Dollar were as follows: Canadian Dollar, .87 to .84; French Franc, 4.38 to 4.01; South African Rand, .836 to .762; Hong Kong Dollar, 5.11 to 4.87; and Australian Dollar, .90 to .865. The Pound Sterling ranged between $2.37 and $2.07. Please note that these figures are meant as somewhat simplified approximations of the currency fluctuations throughout the period, designed to give our readers a good, clear idea of these fluctuations, but not an absolutely precise bank rate.

Buyers' Surcharges

The following buyers' surcharges should be noted: in France 16% up to F6,000, 11.5% up to F20,000, 10% above F20,000; in England, 10% except at Christie's South Kensington; and in the United States, 10% except at Freeman and Harris. The prices in ABPC are given as in the price lists of the various auction houses, that is, without the buyers' surcharges.

AUCTION HOUSES

The sales recorded in this volume are from the auction houses listed below and are designated by code letters. On the following pages are a list of the season's sales from each house and a record of the named consigners of merchandise.

THE AUCTION SEASON

Volume 86 of *American Book Prices Current* reports the auction season from September 1979 through August 1980, a season which was dominated by autograph and manuscript material—including Rashid Al-Din's World History (£850,000) and Tennyson's In Memoriam (£100,000). In celebration of the year of the manuscript, we have made Autographs and Manuscripts Part I of this year's volume.

It was also a year of discovery. How many seasons can boast of a hitherto unrecorded Caxton-printed indulgence found by an auction-house expert? In scrutinizing the vellum sewing-guard fragments inserted into the middle of each quire of the late Simon Pottesman's copy of Johannes Lattebury's *Liber moralium super threnis Jeremiae,* William Ward of Sotheby's made this exciting discovery, which he recorded laconically in the catalogue: "And finally there are 4½ lines, singular issue, printed by Caxton (in type 4 as in Duff 207) and HITHERTO UNRECORDED. Probably printed not much before or after what has been called up to now his second edition."

It was also a season of more: more Arthur Houghton (M-Z and Miniature Books as well); more Robert Honeyman (F-J, and K-M); more J. B. Findlay (Parts II & III on conjuring); more Sang Foundation (Part IV). Two highlights of the Houghton sale were the papers of Samuel Pepys (£100,000) and a Shakespeare First Folio (£80,000). There was also a nice copy of the first edition, first title of Milton's *Paradise Lost,* in a contemporary binding and in a case made from the rafters of the house in which Milton wrote the poem (infusing new meaning into the term original boards).

Another Shakespeare First Folio, this the Manley-Rosebery-Hogan copy, sold for an astonishing FF2,600,000 at the Ader Picard Tajan sale which marked the opening of the new Hotel Drouot in Paris on May 20th. This sale also contained the superb Lothian Boccaccio manuscript "De cas des nobles hommes et femmes," illuminated by the Maitre des Heures de Boucicaut (FF3,800,000).

In America, Swann Galleries turned the current high interest in scientific and medical books from a trend into an accepted fact with such offerings as the 2-part Brooklyn Academy of Medicine sale and the Saltzman collection. Christie's in New York sold the superb J. P. Morgan—Wadsworth Atheneum set of John Gould's works for $400,000 and also disproved the old saw that you can't sell French books in America. California Book sold some fine books from the collection of Estelle Doheny, while Phillips in New York offered the Bernardo Mendel collection of Latin Americana. Sotheby Parke Bernet concentrated on Americana, ranging from the Revolutionary period to the Beat Poets, and one of their most interesting sales was that of the Harry J. Sonneborn Collection, which was rich in federal and state constitutions.

Three newcomers grace our pages this year. Canada Book Auctions is a

fine new firm in Toronto, though it retains the abbreviation *M* in our pages, marking its position as the successor firm to the late Bernard Amtmann's Montreal Book Auction. Phillips Inc. Brooks in Oxford, which is headed by Paul Viney, has also taken to selling books, which we are including. And we welcome Kenneth Hince of Australia, who is represented this year with the sale of the collection of that doughty bookseller Margareta Webber, which was remarkable for its condition: "Many are unopened, as well as uncut. This was not because Margareta Webber did not read—she had worn reprints of many of the texts—but because she had a special affection for many of these books, and wanted to pass them into private libraries in close to original condition."

Looking to the future, we have raised our limit for inclusion to $50 this year. Our next step will be to add a number of auction houses on a permanent basis beginning with Volume 87: Sotheby's and Christie's regionals; Monaco; and several of the English and American provincial houses. To this end we welcome reader suggestions.

Here then is the 1979-80 auction season, a season most notable for manuscripts and for scientific and medical books—and an attestation to the continued good health of the market for antiquarian books.
